

# Cardboard Trays by Box Producer®

Welcome to Box Producer®, your premium partner for custom-printed packaging solutions. We specialize in innovative, sustainable, and versatile cardboard tray solutions designed to meet the diverse needs of modern businesses.

Our [cardboard trays](#) combine functionality with aesthetic appeal, providing ideal packaging solutions for retail display, logistics operations, and food service applications. With our commitment to quality and customization, we ensure that your packaging needs are met with precision and excellence.

# Premium Tray Design

## Robust Construction

Our trays are engineered using premium corrugated board, ensuring maximum durability and protection for your products during transport and display.

## Clean Aesthetic

The sleek design of our trays provides a professional appearance that enhances your brand presentation while maintaining superior functionality.

## Practical Design

Every tray is thoughtfully designed to balance protection, presentation, and practicality, making them ideal for diverse industry applications.

At **Box Producer®**, we believe that packaging should never compromise between form and function. Our cardboard trays exemplify this philosophy, delivering solutions that work as good as they look.

# Sustainable Materials

## 100% Recyclable

Our trays are fully recyclable, reducing environmental impact and supporting circular economy principles.

## Stackable

Efficient design allows for optimal space utilization during storage and transport.

## FSC® Certified

We use only responsibly sourced materials that meet strict Forest Stewardship Council standards.

## Lightweight

Reduce transportation emissions with our lightweight yet durable packaging solutions.

Our commitment to sustainability goes beyond just materials. We continuously innovate our manufacturing processes to minimize waste and energy consumption, ensuring that our environmental footprint is as small as possible.

# Versatile Features

## Custom Sizes and Shapes

Tailored dimensions to perfectly fit your products and supply chain requirements, eliminating wasted space and improving efficiency.

## High Stacking Resistance

Engineered for optimal load-bearing capacity, our trays maintain structural integrity even when stacked multiple layers high.

## Convenient Handling

Optional side handles, easy self-locking assembly, and interlocking features for enhanced stability during transport and handling.

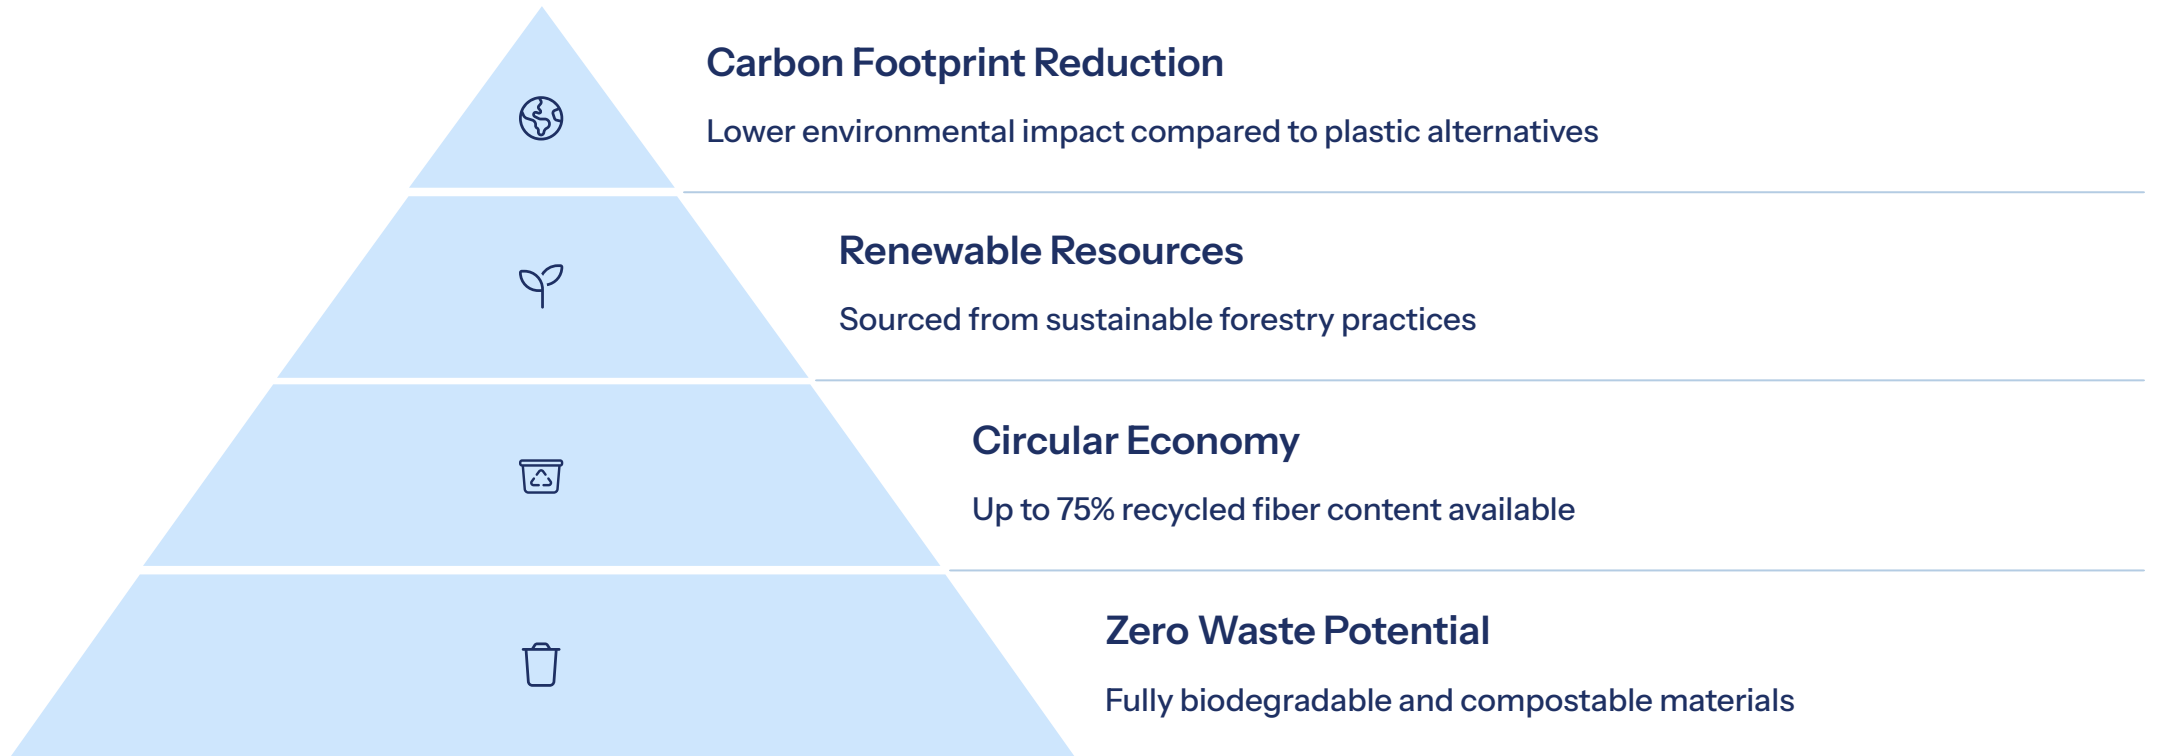

## Ventilation Options

Custom ventilation patterns available for products requiring airflow, particularly beneficial for fresh produce and baked goods.

Each feature is thoughtfully designed to solve specific packaging challenges, creating a comprehensive solution that addresses multiple needs simultaneously.

# Environmental Impact

When you choose Box Producer® cardboard trays, you're making a responsible choice for your business and the planet. Our sustainable packaging solutions help you meet environmental targets while maintaining premium quality and performance.

# Industry Applications

## Retail Display

Our shelf-ready packaging solutions enhance product visibility while streamlining stocking processes. The clean, printable surfaces provide excellent branding opportunities directly at the point of sale.

## Food & Produce

Specially designed ventilated trays keep produce fresh while providing sturdy protection. Our food-safe materials comply with industry regulations for direct food contact applications.

## Logistics & Delivery

The stackable, lightweight nature of our trays makes them ideal for efficient transport and delivery applications, reducing shipping costs while maintaining product protection.

Our versatile trays adapt to numerous industry requirements, providing tailored solutions for each unique application context.

# Customization Options

## Custom Printing

High-resolution color printing to showcase your brand identity and product information

## Material Selection

Choose from single, double, or triple wall board grades based on protection requirements

## Structural Options

Add handles, dividers, or custom hole patterns to enhance functionality

## Finish Treatments

Available varnishes and coatings for enhanced protection and appearance

Our design team works closely with you to understand your specific requirements, creating bespoke packaging solutions that perfectly align with your brand identity and practical needs. From concept to production, we ensure your vision is realized with precision.
