

Product Display Boxes by Box Producer®

Elevate your retail presence with [custom-designed display boxes](#) from Box Producer®. Our innovative packaging solutions are engineered to maximize product visibility and drive sales in any retail environment.

Whether you're showcasing new merchandise, creating eye-catching promotional displays, or enhancing your trade show presence, our premium corrugated and paper display boxes deliver the perfect balance of functionality and visual appeal.

About Box Producer®

State-of-the-art Manufacturing

Our Istanbul-based production facility combines cutting-edge technology with traditional craftsmanship to create packaging solutions that exceed industry standards.

Printing Excellence

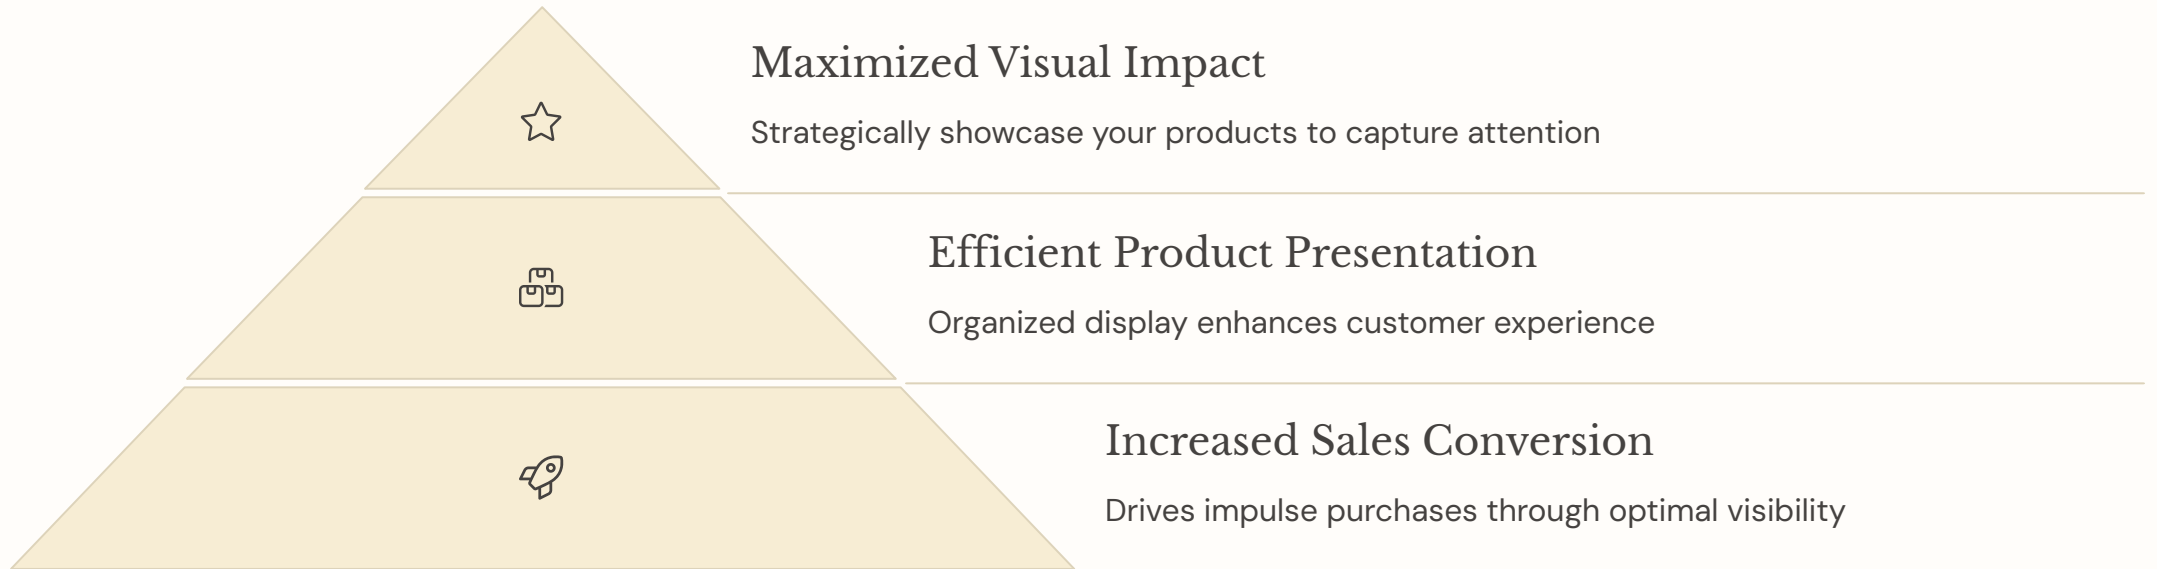

With advanced printing capabilities, we transform ordinary packaging into powerful marketing tools that communicate your brand's unique value proposition.

Flexible Production

From small boutique orders to large-scale retail campaigns, our flexible manufacturing processes accommodate projects of any size with consistent quality.

Display Box Overview

Display boxes serve as silent salespeople, strategically presenting your products at their best angle while providing valuable information to consumers. Our designs focus on ease of assembly, ensuring staff can quickly set up displays without specialized training.

Effective displays create a seamless shopping experience that guides customers from initial interest to purchase decision, significantly increasing the likelihood of conversion in retail environments, trade shows, and promotional events.

Corrugated Display Boxes

Superior Protection

Durable fiberboard safeguards valuable merchandise

Enhanced Strength

Supports heavier products and multiple items

Reusable Design

Extends display lifetime for multiple promotions

Efficient Shipping

Collapsible structure reduces transport costs

Our corrugated display boxes feature premium B flute and BE flute construction, providing the ideal combination of structural integrity and printability. These displays excel in high-traffic retail environments where durability is essential for maintaining product presentation throughout extended promotional periods.

Paper Display Boxes

Lightweight Construction

Paper display boxes offer exceptional portability while maintaining sufficient structure to showcase small to medium-sized products effectively. Ideal for countertop displays where space is limited but visual impact is crucial.

Eco-Friendly Materials

Crafted from sustainable rigid card stock, virgin paperboard, or kraft paper, our paper displays align with environmentally conscious brand values while delivering premium aesthetics that enhance product perception.

Superior Print Surface

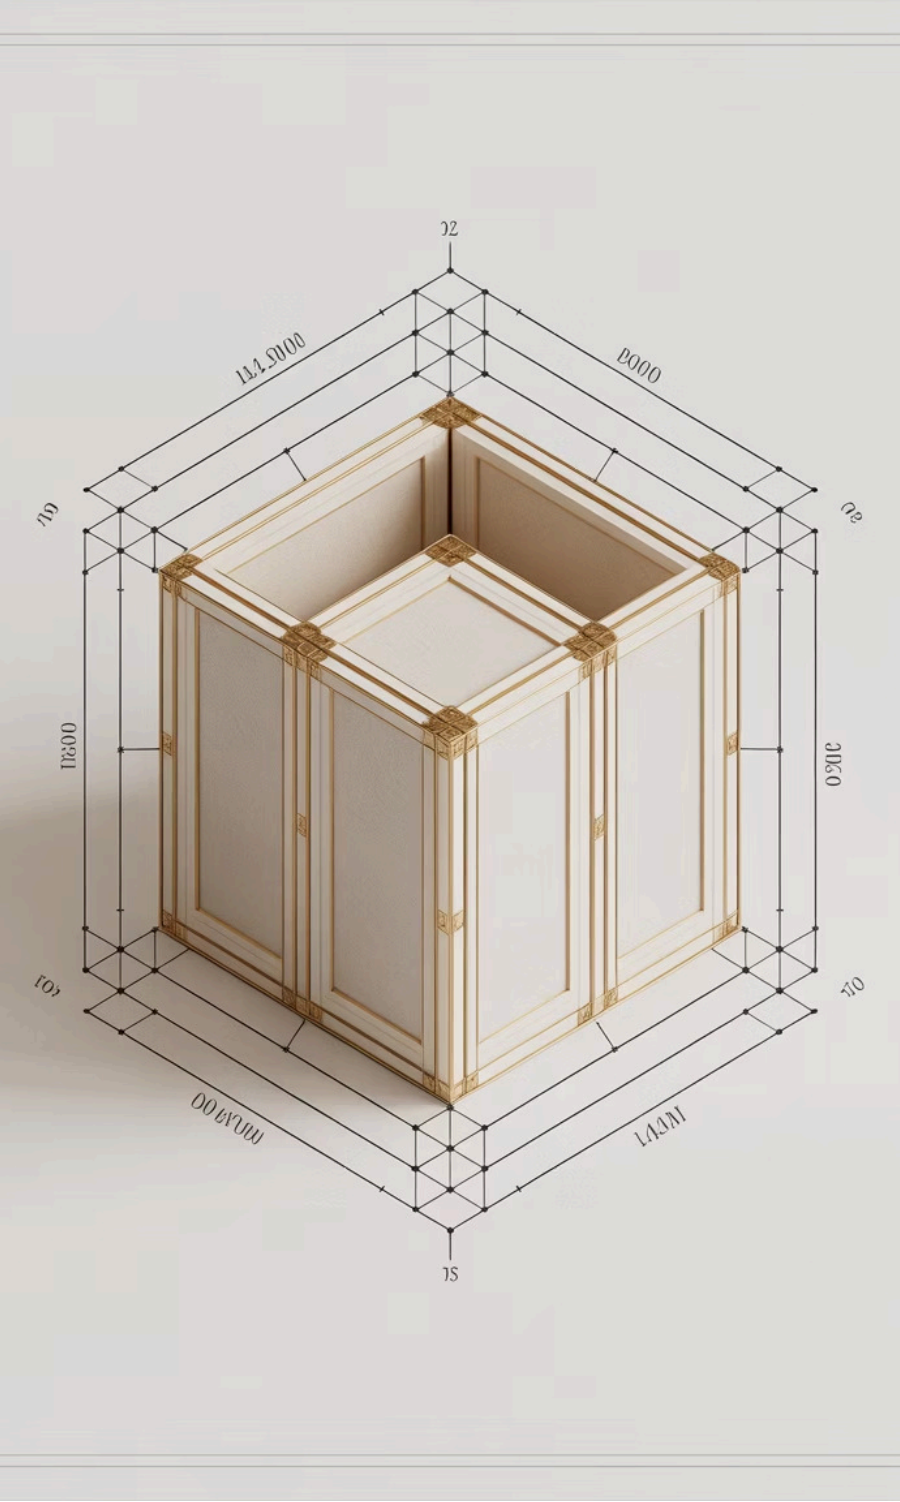

The smooth finish of our paper display boxes provides an exceptional canvas for high-resolution graphics, intricate designs, and vibrant colors that accurately represent your brand identity across retail environments.

Technical Specifications

Material Options	Corrugated: Single or double wall (B flute, BE flute) Paper: Card stock, semi-matt finish
Print Technology	UV printing, offset printing, digital printing
Standard Sizes	Starting from 15.7 x 15.5 x 22.5 cm
Custom Dimensions	Available for all specifications
Weight	From 0.2 kg per display (depending on size and material)
Assembly	Tool-free, quick-lock mechanisms

Our technical specifications ensure each display box meets exact requirements for your product dimensions and weight. The structural design considers not only aesthetics but also practical considerations like stability, assembly time, and shipping efficiency.

All materials undergo rigorous quality testing to ensure consistent performance across production runs, maintaining your brand's professional image in every retail environment.

Customization Options

Brand-Focused Design

Full-color printing with brand colors, logos, and messaging

- Custom die-cutting for unique shapes
- Embossing and debossing options

Structural Engineering

Tailored dimensions to fit specific products

- Multiple compartment configurations
- Integration with retail fixtures

Assembly Features

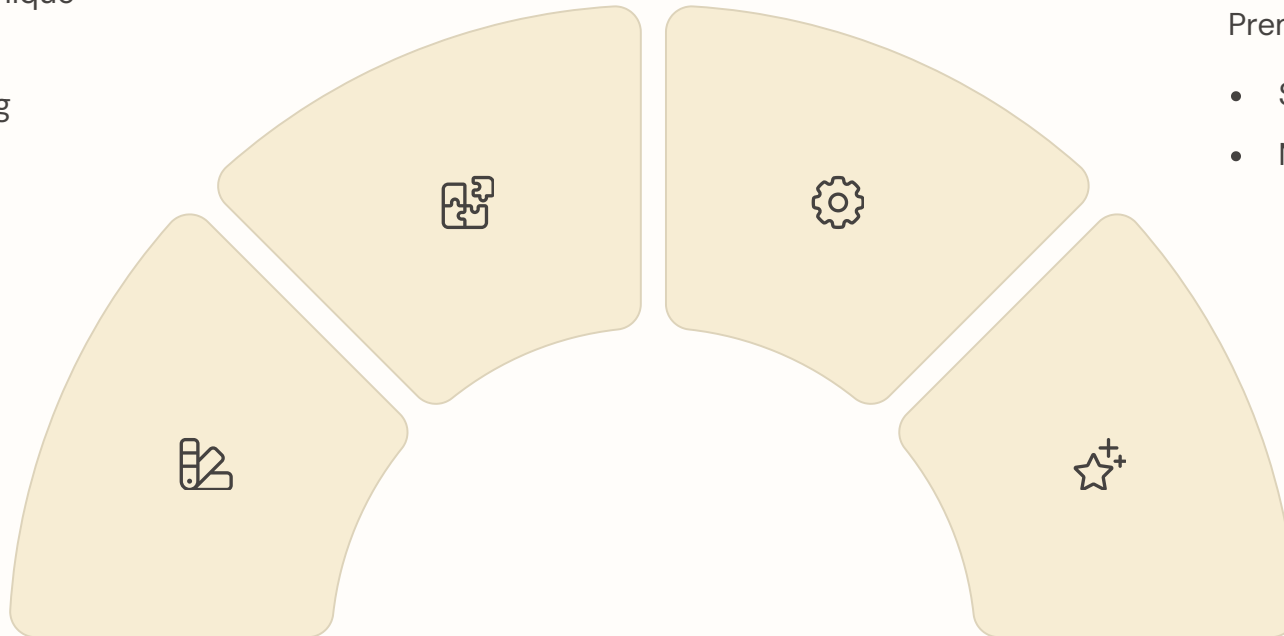

Quick-lock designs for efficient setup

- No-tool assembly requirements
- Reinforced stress points

Finishing Touches

Premium coatings and treatments

- Spot UV highlighting
- Matte or gloss lamination

Applications & Use Cases

Retail Point-of-Sale

Capture attention at checkout areas and high-traffic zones where impulse purchases are most likely. Our displays create dedicated brand spaces within crowded retail environments, effectively highlighting your products above competitors.

Trade Show Exhibitions

Maximize limited booth space with compact yet eye-catching product displays that communicate key benefits at a glance. Lightweight construction facilitates easy transport and setup across multiple event locations.

Product Launches

Create memorable unboxing experiences that generate social media sharing and word-of-mouth marketing. Strategic display design emphasizes new features and innovations, educating consumers at the critical decision point.

Our display boxes have proven particularly effective for cosmetics, specialty foods, electronics accessories, and premium beverages—products where visual presentation significantly influences purchasing decisions.
