

Premium Corrugated Shipping Boxes by Box Producer®

Welcome to Box Producer®, your trusted partner for custom-printed packaging solutions. We specialize in manufacturing high-quality corrugated shipping boxes designed to protect your products while reinforcing your brand identity.

Our premium corrugated boxes cater to diverse industries including e-commerce, retail, manufacturing, and logistics. With our state-of-the-art production facilities, we deliver packaging solutions that combine durability, sustainability, and visual appeal to enhance your customer experience.

Why Corrugated Shipping Boxes?

90%

Global Usage

Of shipped goods worldwide use corrugated packaging

75%

Weight Reduction

Lighter than alternative packaging materials

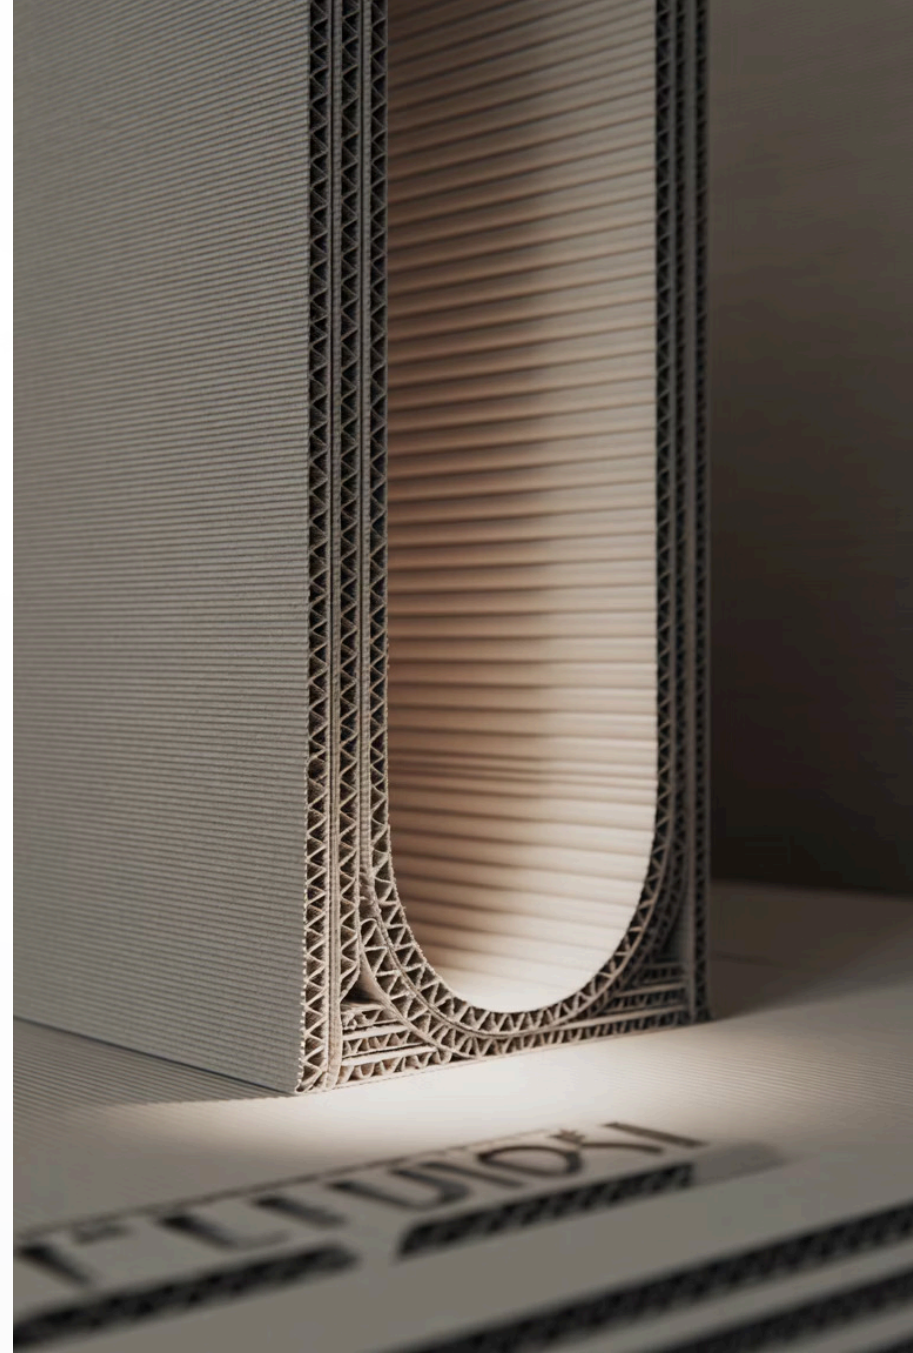

95%

Recyclability

High recycling rate makes it environmentally friendly

Corrugated boxes provide unmatched durability and cost-effectiveness for shipping needs across industries. Their unique structure offers superior protection against impacts, compression, and environmental factors during transit, making them the gold standard for product shipping.

The versatility of corrugated packaging makes it ideal for virtually any application, from delicate electronics to heavy machinery parts. Its lightweight nature also helps reduce shipping costs while maintaining excellent protection capabilities.

Product Features and Variety

Custom Design

Every box can be tailored to your exact specifications, creating a unique packaging solution that perfectly fits your products. Our design team works closely with you to develop packaging that enhances your brand identity while providing optimal protection.

Size Range

From small mailers to large industrial containers, we manufacture boxes in virtually any dimension. Whether you need standard sizes or custom measurements, our production capabilities can accommodate your requirements with precision.

Wall Construction

Choose from single, double, or triple wall constructions based on your protection needs. Heavier products or those requiring extra cushioning benefit from our multi-wall options that provide superior strength and impact resistance.

Technical Specifications

Flute Type	Flutes per Foot	Thickness	Common Applications
C-Flute	39	5/32"	Standard shipping
E-Flute	90	1/16"	Retail packaging
B-Flute	47	1/8"	Display boxes
Double Wall	Varies	5/16"	Heavy items

Our boxes are rigorously tested using industry-standard Mullen (burst) and ECT (edge crush test) protocols to ensure consistent quality. Single wall boxes typically provide ECT ratings of 23-55 lbs/in, while our double wall constructions offer enhanced protection with 42-51 lbs/in ratings.

We can customize material weights and compositions to meet specific shipping requirements, including hazardous materials transport and international compliance standards.

Strength and Durability

Our double wall boxes feature two layers of corrugated material, creating exceptional strength for shipping heavy or fragile items. This construction significantly reduces damage rates during transit, with our customers reporting up to 85% fewer damaged deliveries after switching to our solutions.

Each box undergoes rigorous testing to ensure compliance with industry standards for burst strength, stacking capability, and puncture resistance. Our quality control processes guarantee consistent performance that meets or exceeds international shipping regulations.

Customization and Branding

High-Definition Printing

Our advanced printing technology delivers crisp, vibrant graphics that showcase your brand. Full-color capabilities ensure accurate logo reproduction and eye-catching designs that make your packaging memorable.

Complete Branding Experience

Create a comprehensive unboxing experience with interior printing, custom inserts, and branded protective elements. These details enhance customer satisfaction and increase brand recall.

Eco-Friendly Options

Our environmentally conscious printing uses water-based inks and sustainable materials. Showcase your commitment to sustainability with certified eco-friendly packaging options.

With quick turnaround times and flexible minimum order quantities, we make branded packaging accessible for businesses of all sizes. Our design team can assist with creating compelling packaging that reinforces your brand identity while meeting functional requirements.

Application Examples

In e-commerce applications, our corrugated boxes have helped businesses reduce damage claims by up to 85% compared to non-corrugated alternatives. The structural integrity ensures products arrive intact, improving customer satisfaction and reducing replacement costs.

Retail businesses benefit from our boxes' ability to enhance product presentation while providing practical protection. For industrial clients, our heavy-duty solutions safely transport sensitive equipment, electronics, and mechanical components, even in challenging shipping environments.

Sustainability and Recycling

Renewable Materials

Made from sustainable forestry products and recycled content

- FSC-certified paper sources
- Minimum 70% recycled content available

Highly Recyclable

94% recycling rate in North America

- Easily processed in standard recycling streams
- Biodegradable within 2-6 months

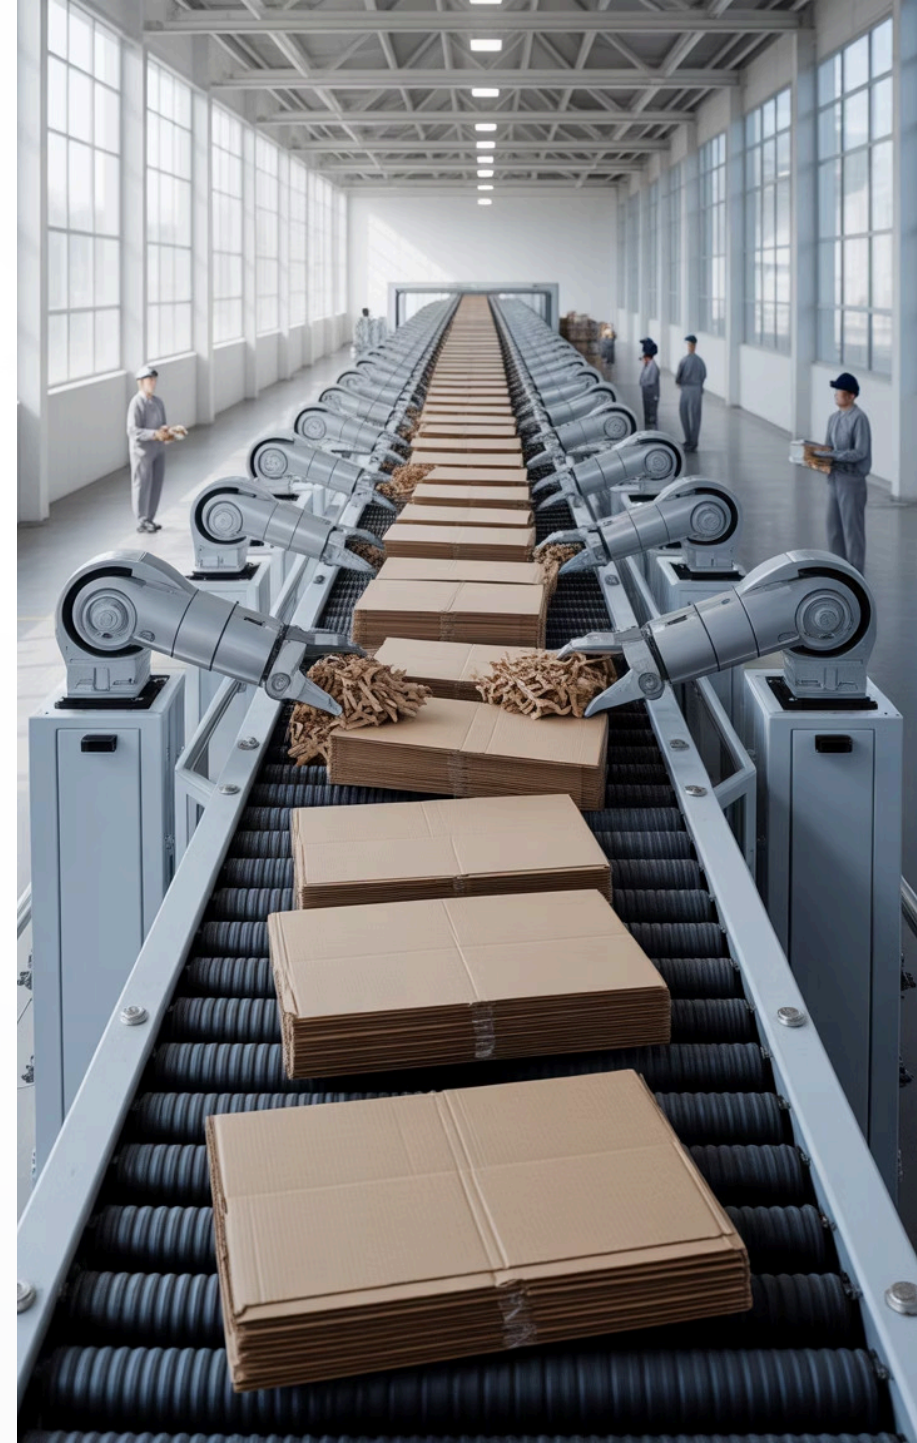

Carbon Footprint

Reduced environmental impact compared to plastic alternatives

- 67% smaller carbon footprint than plastic packaging
- Zero toxic residue when decomposed

Our commitment to sustainability extends throughout our production process. We utilize energy-efficient manufacturing equipment and implement waste reduction practices that minimize environmental impact while maintaining product quality.

Why Choose Box Producer®?

Decades of Experience

With over 25 years in the packaging industry, we bring unmatched expertise to every project. Our team understands the nuances of different shipping requirements across industries and can recommend optimal solutions for your specific needs.

Advanced Manufacturing

Our state-of-the-art digital printing and production facilities enable us to deliver high-quality packaging with exceptional consistency. We continuously invest in the latest technology to improve efficiency and capabilities.

Customer Satisfaction

We maintain a 98% customer satisfaction rate through our commitment to quality, timeliness, and personalized service. Our dedicated account managers ensure your packaging needs are met with precision and care.

Box Producer® stands apart through our dedication to innovation and quality. We view ourselves as partners in your business success, providing packaging solutions that protect your products while elevating your brand. Our flexible production capabilities accommodate both small boutique orders and large-scale enterprise requirements.
